

Breathe new life  
into your living space.

## AFM Safecoat Naturals

Incorporating the science of phytochemistry, AFM Safecoat Naturals offers an organic and biodegradable plant-based alternative to conventional paints, primers and finishes. Like the bark on a tree, your home's interior should be sheathed in a breathable layer inspired by Mother Nature herself – emitting no toxins and leaving no trace. Our full line of Naturals primers, color solutions, and penetrating oils and finishes can protect and beautify your nest so you can breathe easy.

## Primers, Coatings & Finishes

### Phytochemistry meets function

Created in concert with the chemistry of plants, Safecoat's new Naturals coatings are designed to prime and color interior and exterior walls and surfaces safely and naturally, while optimizing environmental respiration. Naturals high-performance Primer is an ideal superior base coat for indoor or outdoor use, while the Flat and Pearl coatings can be tinted with hundreds of zero VOC colorants to create a safe, pure and durable indoor environment.

### Naturals Clear Penetrating Oil

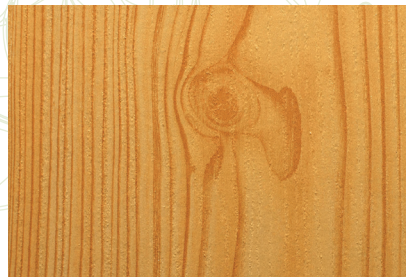

Safecoat Naturals Clear Penetrating Oil is an organic plant-based premium penetrating oil for new and old unfinished woods. Excellent on wood fencing, timberwork, furniture, decking, paneling and trim, it rejuvenates, weatherproofs and enhances the innate beauty of wood surfaces. Reduces peeling, blistering, cracking and improves dimensional stability.

### Naturals Oil Wax Finish

Safecoat Naturals Oil Wax Finish is an organic plant-based premium hardener and sealer for unfinished woods. It is an ideal choice for ready-to-finish wood, bamboo and other interior wooden surfaces including children's furniture and toys. It contains a sophisticated combination of natural resins and waxes that together create a durable, water repellent, water-mark resistant finish and sealer, enhancing and maintaining wood beauty and breatheability.

### Naturals Thinner

Safecoat Naturals Thinner is specially formulated to be used as a diluent and reducer for all Naturals plant-based oil products, as necessary for the particular application. It is designed to reduce the solids content of the primary coating to promote penetration and leveling. It is also a very suitable clean-up medium for oil-coated tools.
