

Safecoat Carpet Care

Because carpets can be a substantial source of toxins that cause indoor air pollution and health concerns, we have created our unique SafeChoice® line of healthy alternatives. Our three-part SafeChoice® carpet shampoo, sealer and lock out system clean, seal and repel dirt and stains, while sealing in harmful toxins typically found in carpets. To protect against harsh or dangerous chemicals found in homes and buildings, SafeChoice® is the highest quality solution available.

Carpet Shampoo

SafeChoice Carpet Shampoo is an odorless, dye-free rug and carpet shampoo. It is both a strong cleaner and odor remover yet safe even for the chemically sensitive. It contains no harmful chemicals like ammonia, butyl ethers, alcohols, phosphates, caustics or acids. It is non-toxic, non-corrosive, non-flammable and biodegradable. It does not irritate hands or skin.

Carpet Seal

SafeChoice Carpet Seal (formerly SafeChoice Carpet Guard) is a unique sealer designed to prevent the outgassing of harmful chemicals used in carpet backing. These chemicals include such known carcinogens as formaldehyde, toluene, benzene, xylene and styrene. Carpet Seal is odor-free and, when properly applied, effectively blocks outgassing for up to five cleanings or one year.

Lock Out

SafeChoice Lock Out is designed to perform two functions: first, to seal in the outgassing of harmful chemicals found in carpet fibers, and second to help repel dirt and stains.

The healthy whole-home solution
