

MATERIAL SAFETY DATA SHEET

(Translation from Danish Material Safety Data Sheet)

1. Product Name: WOCA Industrial Oil 1502, natural,
1552, white, colour, 1582 10% white, and 1592 15% white

Intended use: Industrial oil treatment of wood floors

Company: WoodCare A/S, Havnevej 17
DK-9560 Hadsund

Phone: +45 99 58 56 00

Date: 1st April 2004

2. Composition/Information on Ingredients:

Contains among others	Content-%	Classification
Isoparaffins (C11-C15) (Aromatics: <0,01%)	50-75	Xn; R65
Naphtha (petroleum), Hydrodesulfurized Heavy (Benzene: <0,1%) Oils, pigments, additives	1-2	Xn; R65

3. Hazards Identification:

Working in poor ventilated areas the vapours may seem irritating and can cause headache. Danger of damage to the central nervous system by prolonged exposure through inhalation of high concentrations of vapours.

4. First-Aid Measures:

Inhalation:

Seek fresh air. Get medical attention if any discomfort continues.

Skin contact:

Wash the skin with plenty of soap and water. Use suitable lotion to moisturise skin.

Eye contact:

Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

Ingestion:

Do not induce vomiting. Let the injured drink water or milk and get medical attention.

5. Fire-fighting Measures:

The product is non-flammable but can be set on fire.

Remove container from fire areas, if possible. Cool containers exposed to flames with water until well after fire is out.

Extinguishing material: alcohol resistant foam, powder or water fog.

6. Accidental Release Measures:

Prevent access to drains, sewers, waterways and soil.
Absorb in vermiculite, dry sand or earth and place into containers.
Disposal: see section 13.

7. Handling and Storage:

Ventilate well, e.g. by opening windows or doors. If this is not possible, use approved respiratory protection. See section 8. Do not use the product in small not ventilated rooms.

Avoid skin and eye contact. If skin contact is unavoidable wear protection gloves. See section 8.

Cloths and paper stained with oil must be kept/disposed in metal containers because of risk of autoignition. See also section 10 and 13.

Keep in closed containers.

8. Exposure Controls and Personal Protection:

Occupational Exposure Standard (Danish TLV):

Isoparaffins	180 mg/m ³
Naphtha	180 mg/m ³

Following personal protection is recommended, if necessary:

Respiratory protection: Rubber half-mask/A2-filtres

Gloves: 4H/Nitrile rubber

Eye protection: -

9. Physical and Chemical Properties:

Appearance:	Liquid	Solubility-Water:	-
Odour:	-	n-octanol/water:	-
pH:	-	Flash point:	>67 °C
Boiling point:	-	Autoignition:	-
Melting point:	-	Explosive properties:	-
Vapour pressure (20°C):	-	Viscosity (40°C):	>7x10 ⁻⁶ m ² /s
Density:	0,88-0,94 kg/l	Other data:	-

-: Means no data or not relevant

10. Stability and Reactivity:

When in contact with the Oxygen in the air there is a risk of heating and autoignition. The risk is especially present when the oil is soaked up in cloth or other inflammable material.

Avoid contact with strong oxidisers.

Heating may form explosive vapour-air mixture.

In case of fire toxic gas is liberated (e.g. Carbon Monoxide).

11. Toxicological Information:

Inhalation:

Working in poor ventilated areas the vapours may seem irritating and can cause headache. Danger of damage to the central nervous system by prolonged exposure through inhalation of high concentrations of vapours.

Skin contact:

May irritate the skin.

Eye contact:

May cause irritation of the eyes.

Ingestion:

May cause discomfort, nausea and vomiting.

12. Ecological Information:

There is no data available for the product itself. The Isoparaffins are not considered hazardous to the environment. There is not enough data to evaluate the other components in the product.

Do not allow to contaminate drains, sewers or water courses.

13. Disposal Considerations:

Dispose of in accordance with Local Authority requirements.

14. Transport Information:

The product is not considered dangerous goods.

15. Regulation Information:

Label for supply:

Not classified according to EEC regulations.

Approved Code of Practice: Classification and Labelling of Substances and Preparations Dangerous for supply

16. Other Information:

This Material Safety Data Sheet is partly a translation from a Danish Material Safety Data Sheet.
