

VERMONT NATURAL COATINGS®

Professional Wood Finish Made Green™

September 4, 2019

Vermont Natural Coatings, Inc® verifies the following to be true of its PolyWhey and Bohme finishes.

The above mentioned products do not contain any solvents, heavy metals, lead, phthalates, benzenes, bisphenols, isocyanates, NMP, tetrachlorethylene, or dichloromethane, and are free of all other substances included in both CA Prop 65 and the International Living Future Institute's Red List v4.0. PolyWhey finishes do not contain any formaldehyde, per/polyfluoroalkyl substances, antimicrobials, or flame retardants - as specified by the Healthier Hospitals Initiative's Safer Chemicals program. Additionally, liquid VOC levels fall well below CARB SCM and SCAQMD 2011 recommended thresholds. PolyWhey products do not contain any chemicals listed on the REACH SVHC list, and can be specified to meet LEED, LBC, and HHI project standards, with all corresponding documentation available upon request.

Additionally, PolyWhey® finishes have a Class A Flame Spread rating and zero flash point. All Vermont Natural Coatings finishes are manufactured, bottled and shipped from our plant in Hardwick, VT.

This statement is based on current technical data and information supplied by our vendors, which we believe to be accurate and reliable.

Please contact us directly with any additional questions or concerns.

Sincerely,

Andrew Meyer
President
