

Interior/Exterior Water Based

# DuroStain Pro

Safecoat DuroStain Pro protects and enhances the richness and warmth of wood without exposing your family to toxic chemicals. Use on wooden furniture, floors and millwork. Formulated for everyone needing the healthiest alternative.

■ Low Odor/Low 5g/1 VOC

Zero HAP's (Hazardous Air Pollutants)

■ Easy Brush Application

*The finish of stained wood is actually a blend of several factors - wood species - the wood's natural color and texture - stain color - and lighting and method of application. Although these are photographs of stain on white oak wood samples, it is not possible to reproduce with printing inks the actual color of the stain. In order to determine the stains final effect, test the color on the wood to be finished.*
