GBS Scrubbies User Guide

○ Non-scratch White

For cleaning glass, plastic, and fiberglass, polishing silver and applying oils made by Rubio Monocoat, AFM Safecoat, Bioshield or Paperstone. Also useful with Blaze to remove grout haze or to clean dirty grout lines. Always test first.

● Non-scratch Red

For general scrubbing of stainless steel, porcelain and other hard surfaces. Always test first.

● Abrasive Green

For cleaning copper, removing light rust, metal and paint. Use with 600GL, 500MR, 700DG strippers or cleaners. Do not use on delicate items, or for residential bathroom fixtures. Always test first.

● Super-abrasive Black

For stripping metal, wood and heavy rust. Do not use on delicate items, or for residential bathroom fixtures. Always test first.

Versatile — Countless applications. Attach to a drill with Velcro adapter (sold separately).

EcoFriendly — Made of 100% recycled bottles. Biodegradable. Green Seal GS20-certified.

Economical — Can be cleaned and reused over and over, unlike sandpaper or steel wool.

Made in the USA — These scrub pads support our US economy.
