

# Sustainable Sample Box Waterproof Cork Flooring

Free Shipping for 250 + SF

**GREEN BUILDING SUPPLY**

SAFE ■ SUSTAINABLE ■ SMART

# 1. Try Samples for 10 Days

Hi, I'm Derek, your Eco-Advisor here at Green Building Supply.

We believe samples are a key part of your decision making process, so we are pleased to offer you a larger selection than ever before.

You've got 10 days from the day you receive them, to try out the samples in your home and find your favorites.

## Try Our Room Visualizer - it's magic

People love using our new room visualizer to see how the flooring will look in your room. Check it out - it's easy to do from any iPhone or Android device.

If you have any questions, please don't hesitate to contact me.

Email me at [derek@greenbuildingsupply.com](mailto:derek@greenbuildingsupply.com)

Call or Text my direct line at 641-323-8990.

Sincerely,

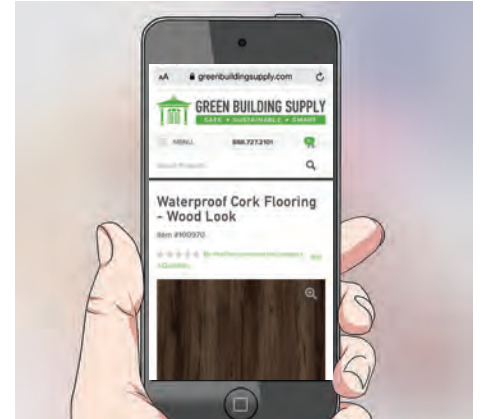

# Visualize Your Room

1. Point your camera at the QR code or visit the product page online.

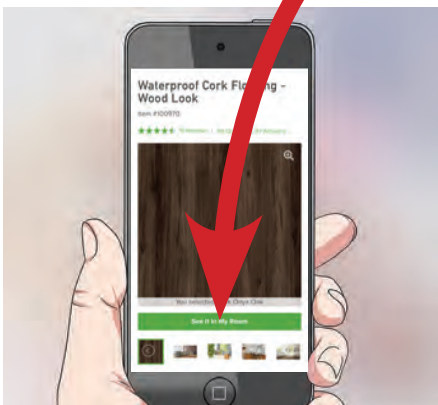

2. Tap the notification once the QR code is scanned.

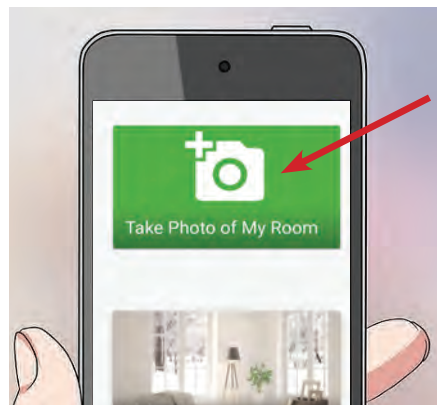

3. Your phone will take you to the product page.

## Tap this button

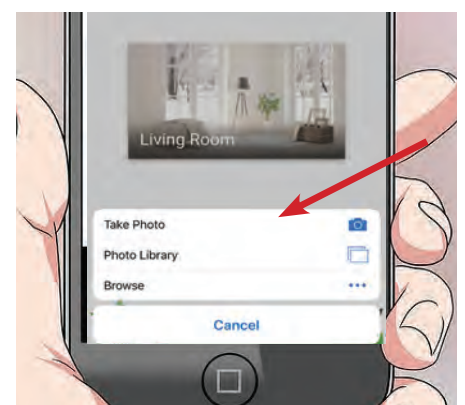

### See It In My Room

4. Scroll down and tap “See It In My Room” below the photo.

5. Tap “Take Photo of My Room”

6. Take a photo of your room or use an existing photo.

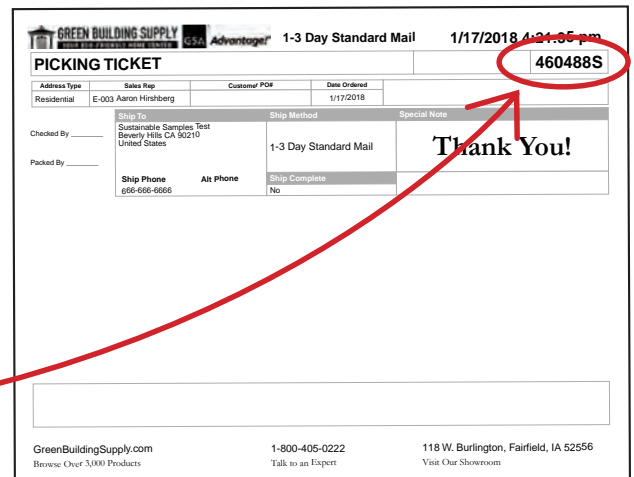

# 2. Order Your Floor

We would like to give you an additional \$25 off your purchase of 185 square feet of flooring.

## Your Coupon Code is Your Order Number

Find your order number on your packing slip, or in your email. You will use your order number as your coupon code.

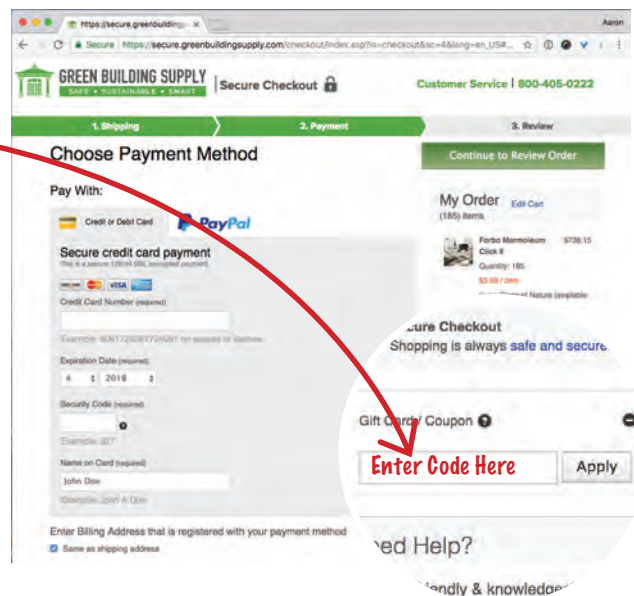

## Order Online

Enter your order number as your coupon code on the payment page of checkout.

## Order by Phone

Give your Eco Advisor your coupon code over the phone.

# 3. Return the Samples

Please box up all the flooring samples.  
You may keep all the literature.

**1. Tape the box** closed with the provided strip of kraft tape. Run the shiny side under the sink for a moment and then apply it to the box.

**2. Apply the pre-paid label ON TOP OF the existing label** so that the old label is completely covered up.

**3. Mail it** either by giving it to your mail carrier or dropping it off at any US Post Office.

# Thank You!

# Climate Positive Flooring

With respect for nature and wellbeing on its core values, Amorim has reached a remarkable carbon negative footprint in its entire process, helping to reduce the Global Warming Potential.

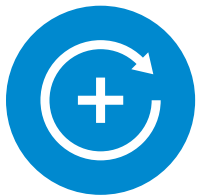

## Environment

No trees are damaged or cut during harvesting; The cork oak forest retains 5x more CO2 from the atmosphere helping to reduce Global Warming Potential (GWP).

## Close distances

Factories are located within few kms from the forests.

## Economy

The cork oak forest creates jobs in the cork industry and in other related industries.

## Reincorporation of waste

Any cork waste and surplus is collected, granulated and reincorporated in the production process, originating a lower carbon footprint.

## Social Impact

The cork industry promotes settlement in areas at risk of desertification; Cork harvesting is an activity that crosses generations.

## Biomass

The dust from the production lines is vacuumed and conducted to silos, where it is burned to generate energy through biomass. 65% of our energy comes from cork dust.

# PVC Free 100% Waterproof Cork Flooring

Waterproof cork is a new generation of sustainable, non-PVC flooring that offers a durable, long lasting, comfortable floor that is 100% waterproof. It is also beautiful, safe and climate positive for the environment. It has all the benefits of luxury vinyl tile (LVT) flooring but with none of the hazardous chemicals.

Waterproof Cork flooring contains zero VOC's, PVC, phthalates, formaldehyde, isocyanates, flame retardants or antimicrobials. As a result, Waterproof Cork flooring produces the safest indoor air quality certified by numerous national and international third-party organizations.

## Indoor air quality

Amorim has several Indoor Air Quality certificates, that certify that no harmful particles are present in our flooring products living up to our promise to provide wellbeing in every room.

## Environmental Performance

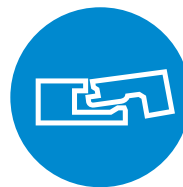

Respect for nature is at the core of our existence, therefore making sure our processes and products respect the highest standards in environment protection is embedded in our culture.

## Sustainable Buildings

All of our products contribute with points to LEED and BREEAM certifications - the American and European certifications for sustainable construction and projects.

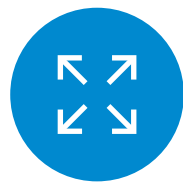

### Floating Click Installation

No Nails or Glue

### Superior Durability

Suitable for Commercial Areas

### Dimensionally Stable

Won't expand or contract with humidity

The ultimate floor mop comes with a built-in refillable cartridge of Bona Professional Cleaner mounted to a heavy-duty pole along with a trigger spray on the handle that lets you clean with one hand without ever bending over. Pull the trigger to spray the cleaner on the floor and then mop with the 15" wide microfiber swivel head. It doesn't get any easier.

\$49.99

# Easy Installation

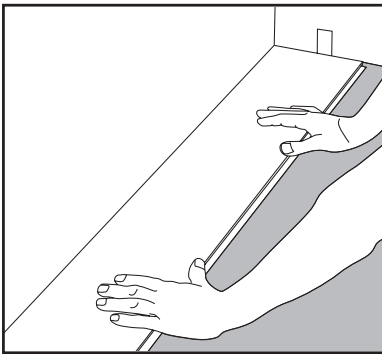

## Watch the Installation Video

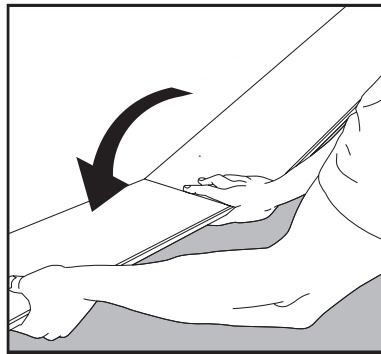

[GreenBuildingSupply.com/install-waterproof-video](https://GreenBuildingSupply.com/install-waterproof-video).

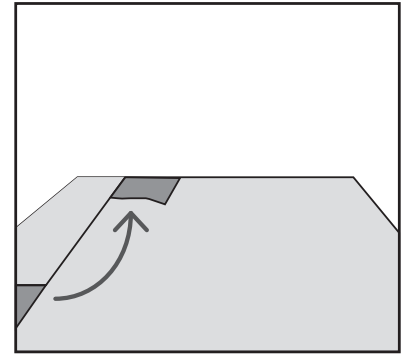

Use your phone to snap a photo to automatically get directed to the video.

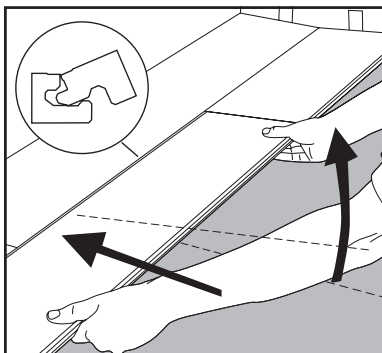

**STEP 1:** Begin installation from right to left. Insert spacers at ends and edges to maintain a gap of .2"

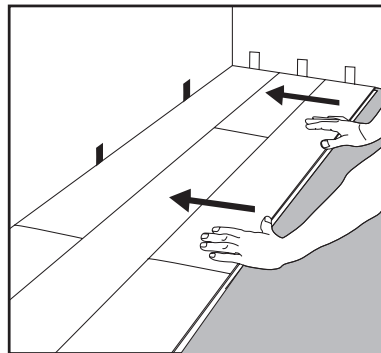

**STEP 2:** Lock short end of plank by inserting tongue into groove at an angle and drop in place. Complete the first row.

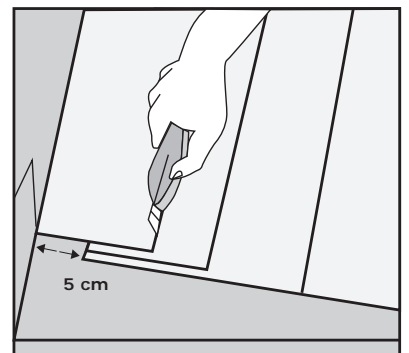

**STEP 3:** Cut the final plank with utility blade or saw and use the leftover plank to start the second row.

**STEP 4:** Place short end of plank at an angle to the first board. Lower down and then angle plank against first row.

**STEP 5:** Continue with installation until you reach the opposite wall.

**STEP 6:** Cut the last row to the correct size while maintaining a gap of .2". Use a small pry bar to get a tight fit.
