VACUUM RECOMMENDATION

Unique Carpets Ltd. specifically recommends Sanitaire vacuums (models SC888M, SC888N, SC688B) by Electrolux. They're affordable uprights with rotating brushes that are soft enough that they won't damage any carpet but strong enough to provide exceptional grooming of the face fibers and soil removal. They also have manually adjustable heads that allow them to be set specifically to the desired height. Sanitaire vacuums can be purchased on-line from any number of sources or through authorized dealers nationwide. A dealer near you can be found through the dealer locator section of their web site, www.sanitairecommercial.com
