

THE RIGHT WAY IS WOODWISE

WOODWISE®

Concentrate

HARDWOOD Floor Cleaner

For No-Wax Finishes

Leaves No Oily Film to Attract Dirt

32 Oz. 1 Qt. .95L

WOODWISE is a cleaning solution specifically formulated to properly maintain no-wax finishes. It lifts and removes soil build-up common to hardwood floors, without leaving a film which could interfere with the maintenance and inhibit recoating. **WOODWISE** contains no oils or waxes that attract and hold soil, leaves no residue and has a fresh scent.

DIRECTIONS

For use on most no-wax hardwood floor finishes. Vacuum or sweep to remove all loose dirt from floor. Mix one cup of **WOODWISE** with 1 gallon of warm water. Damp mop or sponge surface thoroughly. Never use a string mop or sponge mop unless it is wrung out. Too much liquid will cause cupping of your hardwood floor. After cleaning, wipe excess moisture with a clean, dry cloth.

For use as a spot cleaner, add 2-oz concentrate cleaner to a 1-qt spray bottle and fill with water. Spot-clean as needed. Or to clean the entire floor, spray a 6 to 8 sq. ft. area and damp mop. (Make sure there is no excess water in your sponge, mop or rag). For best results, remove excess moisture before moving on to next area.

CAUTION

Avoid direct contact with eyes. In case of eye contact, immediately remove contact lenses and flush eyes for 15 minutes. If ingested, drink water and call your physician.

Safe and Effective
Biodegradable and Phosphate-Free
